

Eliminating Security Alerts when Logging into OWA

- 1) These steps must be performed on every computer with the user logged in.
- 2) Enter the Outlook Web Access site as usual, stopping on the first Security Alert popup window.
- 3) Click View Certificate->Install Certificate->Next->Next->Finish->OK ->OK->Yes.
- 4) On the Tools menu, click Internet Options.
- 5) On the Security tab, click Custom Level.
- 6) Scroll Down to "Don't prompt for client certificate selection when no certificates or only one certificate exists".
- 7) Click the Enable button.
- 8) Click OK->Yes.
- 9) On the Advanced tab, scroll down to Security.
- 10) Uncheck "Warn about invalid site certificates".
- 11) Click OK.
